If I see Renova in Grand Battle Tower, will I earn more? A: There is no way to determine this through observation, but you can try to navigate to one of the airships and check the cash prize inside for how much you can win. I have no idea how this works. Note that you can see this more clearly in the cash prize page of the site. Further, if you are viewing the page with the the appropriate item upgrades, you can see that the cash prize in each case is specifically defined. So I expect that an airship which only has an airship and rare quality upgrades will have a higher prize. This is also a good test method, since it's not possible to see the prizes for specific level improvements inside a Grand Battle Tower.
