**Tama & Bone Interactive has released a free sandbox survival game based on the world of Tarnished. The game is inspired by classic survival games like DayZ and Rust but takes on a deeper, more detailed approach. Torn City is very much a sandbox game. It is described as a survival city builder where you manage resources to create a city which is now under threat. Torn City offers a functional system for a city where you need to adjust resources, defences and attacks. The city can be home to many different activities like combat training, resupply, construction or scavenging, but the best way to find out what Torn City has to offer, is to play it and explore the city. Key Features: \* Sandbox Citybuilder \* Unique gameplay mechanics. The city is shaped by your decisions, but at the same time there are enemies which will attack you if you get into trouble. \* Multiple game modes. TORN CITY is a first person survival citybuilder where you are the leader of a group of survivors. In the highly customizable city of Torn City, you can tame dinosaurs, build a thriving civilization or build up your own survival community. Whether you choose to adventure into new lands, fend off wild beasts or build a better place to live, Torn City offers a multitude of locations, challenges and gameplay mechanics. Explore Torn City yourself. Build, fight, scavenge and craft your way through. TORN CITY sandbox survival game inspired by DayZ Review for TORN CITY fan game: HOW TO JOIN THE GUILD: Full Game is available to play for free on the website of the game's publisher. To play more free games, purchase the full version of Torn City (and enjoy the rest of the adventure). The full version is bff6bb2d33**

DESIGN This is a fantasy game. Tarnished Heroes is an epic fantasy game that has been designed for both smartphone and PC. The main protagonist is a Tarnished Hero who went to the Elden Ring in order to become a hero. It is a drama that plays out as you progress from an undeveloped Tarnished Hero who lacks training to a developer of special skills and a player of dignified behavior to a battle against war-like imposters. It is a work based on a myth, and the hero arc will be connected with the story of an adventurous noble lady. The world of "The Lands Between" is an undeveloped world filled with open fields, and numerous dungeons filled with various monsters. It will be a world that you can freely wander. There are open-field towns and villages that offer lodging, shopping, and various activities. When you go to the towns, you can experience the lively atmosphere of a town. We have prepared a world that offers a player-versus-environment battle that is unique to the game, as well as quests, quest rewards, and item exploration. While there are weapons and armor, there are also different types of magic based on the setting of the world. NEW FEATURES Tarnished Heroes follows a narrative of a king who establishes a new kingdom that exists in "The Lands Between". The player can travel from the servant's room to the throne room by building the kingdom, maintaining the kingdom and taking up dominion as the king. Tarnished Heroes makes it easy for you to wander freely in an open world. The open world is filled with towns, villages, and dungeons. Tarnished Heroes will offer you a rich adventure where the player gets to experience the excitement of traversing a vast world with a great variety of events. For example, when you enter the town of Betyl, you can "exchange" with a smith, use the restaurant, and play various games. The following is a list of the features of the game and the game system that have been newly added. 1. CONTROL SYSTEM (BETA) The setting of the game is in "The Lands Between". The "Online Custom Dungeon" mode will let you enjoy the fun of having a large community with other players and the "Map Custom Dungeon" mode will let you enjoy the fun of experiencing the smell of a map with only you and your close friends
