What is a "fantasy RPG"?

A fantasy RPG is a game in which you make a team of strong-willed heroes to fight against various enemies and threats. Team tactics and character development are key elements of a fantasy RPG. When the threat level rises, the strategy changes, and there are battles requiring a lot of endurance and skill. The story, such as battles, the progression of the story of the world, and the battles against an enemy, etc., changes according to your actions.

It's a great opportunity to challenge yourself in a diverse and varied world." -Games Radar "A surprisingly accomplished strategy/RPG with a very strong online component as well." -PCGN "A refreshingly unique take on the genre" -Destructoid "Should you choose to live in the past, A Strange World will please you. But, if you would rather be amongst the future, there is not much here for you." -The Fusible "A Strange World will keep you engrossed, especially on the online play." -Gamefaqs "This is a game that's worth taking a chance on. It's incredibly fun with a nice story and lots of things to do." -Android Central "An enjoyable game if you're up for a little fantasy strategy" -Pocket Gamer "You could start playing this game in April and not get bored. The game definitely has a strong open world to it, as you can explore around the map at your leisure." -Touch Arcade "A Strange World deserves a wide audience as it blends a good story with engaging gameplay." -Rock, Paper, Shotgun "A Strange World is an interesting, involving RPG adventure that will no doubt keep you entertained." -GoNintendo "The best part of this game is certainly the non-linearity. For me, a game project should have a special person in charge of it. Therefore, I'm not accepting any new requests at this time. To those who are expecting a new game, Please note that you are always welcome to come play in the game if you like. To those who installed the game, I'm sorry to take so long to return. I'm also sorry for those who may have felt deceived. However, I feel that I have fully completed the game according to my expectations, and I have already decided to make an official release. The game is called "Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between." The original game concept was conceived during the event of the Firelords Festival. I wanted to create a fantasy action RPG that would leave players with a deep impression. I'm sorry to say that it's not a simple game, and that you have to work hard in order to get the desired results. Therefore, I can no longer accept anyone who wants to request a new project. I want to make a new game that can be enjoyed by many people, but my life is not that easy as I thought. There is nothing much to say. It's me, who is struggling with a heavy heart. I sincerely apologize for any disappointment that the release date has come this far. To those who still believe in me, please try to accept my apology for being unable to give you a happy ending. Until further notice, please don't get upset about what's going on. I'm sorry for any trouble.

Thank you. Satou
