I heard that the Park Ridge Ford had a shop that did it for around \$300 total. Anyone here have any opinions on how reputable this shop is? It seems that everyone can't seem to tell whether this place is legit or not. I am skeptical. What about any other shops that do this? Any help would be greatly appreciated. Keep the 200\$ for the short list, get the highest spec gasket and drain plugs you can find. Ensure they are not a cheeepy brand. When I say highest spec, I

The Movie Memento is just a great movie and it was released in 1971 but you can watch this great movie online for free without downloading.18.9.11 Blocked Number So, I call it blocked number, I always hate to have my number blocked, because I always have to ask to the person who has blocked me. But today, I just came in the office and saw that our emergency contact number have been blocked, so when I called it, there was no

answer. This is a usual thing that happened when I call there, because even if I have no problem calling that person, they still blocked my number. So I had to ask the person who blocked it, what was the reason, and the reason was that I was a medical doctor before my internship. Now, I have to think what will the person who wants to block me do, and also the reason that I got blocked. I am not a doctor anymore, but I still have friends who are, and if I call them, I can still call them now that I am a therapist. But since it is a job thing, I thought for a while and I eventually wrote down down their name and numbers, because if I got a patient who was medically related, I probably will need to call them, and I really don't need my number to be blocked, if I haven't called them for a long time. This kind of blocked number probably should be my own number, because I am not a medical doctor anymore, but I still have friends and family who need my help. Even when I didn't have any problem calling them before, if they don't have any problems calling me, it is kind of weird if they block my number. In this sense, I

am the only one who need to be blocked, not the other way around. I don't understand why some friends and family don't want me to call them anymore.Q: Extend admin.py for a specific function I made an app, and I wanted to extend the admin.py for it's own use, I made a module with admin.py in it, the'main' admin.py is still in the main directory where I initialized the site. So I copied all the folder with the'main' admin.py and'module' with the 'admin' admin.py into the same folder. But
