Severe asthma: why the misconception? Frequent misconceptions in patients with severe asthma have cast a shadow over the treatment of this condition. This article gives the "noble, noble, noble" answers to some of the most common questions. Sadly, however, many people with asthma do not understand the nature of the disease, and this can lead to ineffectual management. By improving both doctors' and patients' understanding of the disease, the overall asthma control level and quality of life can improve, and costs can be kept down.Q: How to pass parameters to multiples values of an entity in Core Data? I have an entity with different

properties. I would like to pass some parameters with UserDefaults. When it is only one property, then this works. But I have a problem with the multiples. I have tried to use : NSArray *objects = [[NSArray alloc] init]; [objects addObject:@"0.0"]; [objects addObject:@"0.1"]; [objects addObject:@"0.2"]; UserDefaults *def = [NSUserDefaults standardUserDefaults]; [def setObject:objects forKey:@"myKey"]; But I have some problem with the key I guess c6a93da74d
